Additional Information:

In addition to skills and disciplines found across the ICT Spectrum we have particular strengths in the following areas:

IF CLOUD & DATA STORAGE

IF has a strong reputation within the Storage Market having worked closely with some of the leading Storage Vendors for the last 10 years. Using up-to-date market knowledge, our Storage team can consult with you on skills shortages, market trends and to help set budgetary expectations. Our team regularly attend seminars and conventions in order to keep abreast of new technologies and to understand how these affect the market.

IF CYBER & SECURITY

Our Cyber & Information Security Consultants are fanatical about the ever developing world of technology and the security solutions that are required to keep both business and personal information secure. Cyber Security is a rapidly growing global issue and an ever increasing market which is predicted to worth over 200 billion USD by 2021.

We work with a range of organisations from small start ups to large multinationals across a variety of industries including Financial Services, Pharmaceuticals, Telecommunications and Public Sector (including the SC & DV Cleared Market).

IF DIGITAL

IF Digital has gone from strength to strength. By way of example his team have played a significant role in The Digital Journey for a two large Insurer (placing both contractors and permanent staff in a variety of positions, including: Digital Bas, UX Specialists, Front-End and Full Stack Developers, Designers, Agile Coaches and Project Managers. He has also supplied key figures into the UK's most renowned Retail and Hospitality Customers as well as servicing our BAU Managed Service Accounts

IF FINTECH

IF FinTech has quickly established an impressive client base including amongst the tenants of Level39.
